

Medical Assistant

Program Information Sheet for 2022-2023

Program Description

This 36-week program prepares students with the necessary manipulative skills, technical knowledge and experience for entry-level employment as an Administrative Medical Assistant and a Clinical Medical Assistant in a doctor's office, medical clinic or health care agency.

Through a combination of lecture, laboratory and clinical experience, students will receive skills training in the following: health care systems, ethics and law for the Medical Assistants, necessary skills to interact with patients and families, introduction to anatomy and physiology, introduction to computer literacy, telephone techniques, medical records management, introduction to medical coding and medical insurance, infection control, assisting with the physical examination, assisting with minor office surgeries, performing EKGs, pharmacology and administration of medications, basic laboratory skills, assisting with diagnostic and therapeutic procedures, specialized medical practices and Basic Life Support certificate and First Aid. This program also provides students with the technical knowledge required to work in the "front and back office." Each student will also participate in clinical training through our "community classroom," which includes instruction in a medical office working side by side with an Administrative Medical Assistant and a Clinical Medical Assistant.

This course is approved for federal financial aid.

Program Objectives

Students successfully completing this program are eligible to sit for the California Certifying Board of Medical Assistants exam in Administration and Clinical areas.
