

Phlebotomy Technician

Program Information Sheet for Spring 2025 - Updated Aug 2024

Program Description

This **11-week program (106 clock hours)** prepares students to draw blood specimens from patients as requested by hospitals and referring physicians. The curriculum includes infection control, universal precautions, anatomy and physiology of body systems with emphasis on circulatory systems, skin preparation and punctures, laboratory tests, terminology, specimen handling and age-specific patient needs.

In addition, for one week during the program, students will gain real-world, on-the-job training through our **"Community Classroom."** This unpaid learning experience prepares students for a successful transition into the workplace.

Program Objectives

Students who successfully pass the National Exam for Certified Phlebotomy Technician on the last day of class may then apply to become a **California State Certified Phlebotomy Technician.**

Application Process: Apply online at cte.bcoe.org
